

SINGLE FEASIBLE SOURCE PURCHASE POSTING NOTICE

The Missouri Department of Transportation has determined that only one source can provide the products or services described below

Title: Portable Traffic Control System – SFS 7-060921

Description: The Missouri Department of Transportation has determined that only one source, Horizon Signal Technologies, Inc., Malvern, PA can provide the Department with at least one Portable Traffic Control System (PTCS) with enclosed transport trailer. The PTCS shall consist of four self-contained, portable signal carts. Each cart shall provide a vertical telescoping upright with one signal head, radio controller, 12-volt battery system to provide 72-hours of continuous operation, and 110-volt battery charger. The signal head shall consist of three (red, amber, and green) 12-inch diameter LED signal indications, backplate, and visors. The system shall include a wireless radio communication package, micro-terminal, wireless remote, unlimited technical phone support, and training on the system. The PTCS shall be able to operate in a fixed-time, traffic-actuated, or manual-control mode. Design and operations of the units shall comply with Federal Highway Administration's (FHWA's) Manual on Uniform Traffic Control Devices. The approximate value of the PTCS is estimated at an annual cost of \$35,000 or more per set.

Contract Period: October 01, 2006 through September 30, 2007
